

corrisam1 (12:55:54 PM): geez. I've spent an hour trying to log on

corrisam1 (12:56:04 PM): seems that the password is case sensitive

corrisam1 (12:56:17 PM): did anyone else log on?

carlam@mac.com (12:56:27 PM): yes, i believe that is true

corrisam1 (12:56:46 PM): okay. so, we have four minutes to talk about the manual

carlam@mac.com (12:58:02 PM): what did you learn new?

corrisam1 (12:58:25 PM): Actually, I read the manual thouroughly when I signed up, so nothing was really new...

corrisam1 (12:58:31 PM): but it's such a good reminder

carlam@mac.com (12:58:39 PM): I learned that you should leave at least a 1/2" diameter when trimming the smallest stamps. you know, the quotation marks in the alpha sets, stamps like that.

corrisam1 (12:58:47 PM): ah.

corrisam1 (12:58:59 PM): I will read more closely for details.

corrisam1 (12:59:11 PM): I did learn that the new alphabet stamps

corrisam1 (12:59:18 PM): will be mounted on thinner rubber

corrisam1 (12:59:38 PM): so they won't be so wobbly.

carlam@mac.com (12:59:43 PM): you know about the business booster kit, right? that came up in the messages I received back from demonstrators who responded.

corrisam1 (12:59:48 PM): yes.

carlam@mac.com (1:00:39 PM): shari was here this am to pick up the dogs, she says the new thinner rubber is easier to rip. she needed to readjust a stamp she had mounted and the foam tore when she tried to pull it up.

corrisam1 (1:00:57 PM): bummer. did she put it in the microwave before she tried?

carlam@mac.com (1:01:05 PM): didn't ask

corrisam1 (1:01:12 PM): 8 seconds seems to do the trick

carlam@mac.com (1:01:36 PM): i'll put the case sensitive information in my message when I call people to chat so they won't have that difficulty.

corrisam1 (1:01:38 PM): how about a "Mounting 101" feature in your newsletter?

corrisam1 (1:01:51 PM): great. It gave me fits

carlam@mac.com (1:01:59 PM): good idea

corrisam1 (1:02:02 PM): I couldn't figure out what I was doing wrong

corrisam1 (1:02:20 PM): I even e-mailed to get a password reminder

corrisam1 (1:02:32 PM): that's how I figured out the case-sensitive thing

corrisam1 (1:02:41 PM): also, two screens come up for me

corrisam1 (1:02:49 PM): one that is the AIM website

corrisam1 (1:02:56 PM): from which you can't log on and another

corrisam1 (1:03:15 PM): little tiny window came up from which I could

corrisam1 (1:03:35 PM): the tiny window was hidden behind the others

carlam@mac.com (1:03:59 PM): well, gotta run. have to get out to go do training

corrisam1 (1:04:06 PM): ok. good luck!
